Highlights

Adjustable thermostat

Wide temperature range (70°C to 230°C) to choose the ideal temperature for each ingredient so that you ensure the perfect results for every food

Duo plate

The duo plate is reversible and therefore lets you cook with either a ribbed or smooth grilling surface, so that you can enjoy your food exactly the way you like. The smooth plate is suitable for cooking small pieces of food. The ribbed surfaces create that irresistible flame-grilled effect on your pieces of meat.

Grease tray

Excess grease is drained to dishwasher safe grease tray

Non-stick grilling plate

Non-stick surfaces allow you to cook without any added oil, so you only taste the flavour of food

Sloped grill body

Sloped grill makes the excess fat flow into grease tray therefore decreases the smell and smoke

Grilling tray with glass lid

You can use the grilling tray with high walls and glass lid to first grill and then add sauce into the tray, wok and stir fry. So you can enjoy the maximum variety: risottos, paella, oriental wok dishes, stroganoffs and much more.

Dishwasher-safe lid and plate

Detachable grilling plate, glass lid and grease tray are dishwasher-safe.
